We provide eco-friendly backyard skating rinks that families can rent, use and return. Best of all, we deliver, install and remove your rink at the end of the season, so your family can just focus on having fun. Our custom rink sizes and designs are made using GRIPBlock technology, a unique and sustainable building product made right here in Canada.

DELIVERED

Once you have decided on your rink size and location, our experienced staff will coordinate the delivery of your rink building materials on the day and time you choose.

INSTALLED

Our team of professional installers will arrive on time and assemble your rink within a few hours, making sure to add arena lighting and level your skating surface wherever possible.

REMOVED

When temperatures rise and it's time to hang up your skates for the season, our team will return to your home on the date you choose and remove your rink.

FLEXIBLE RINKS & RENTAL OPTIONS

Our rinks are specially designed to accommodate a wide variety of backyards. Choose from one of our popular sizes below or customize your rink to suit your own needs. No matter what size of rink you select, your rental includes a full winter season and all inclusive pricing.

Small:

27'(L) x 17'(W)

Medium:

47'(L) x 27'(W)

Large:

77'(L) x 17'(W)

GET STARTED

Renting a rink is as simple as 1-2-3. Just scan the QR code below and provide us your contact information, including where you would like us to deliver and build you rink. You will be asked to provide a small deposit after which a Rent-A-Rink representative will contact you to arrange for an on-site viewing of your backyard.

RENTARINK.NET

Our rinks are proudly made using GRIPBlock technology, a sustainable interlocking building brick made to withstand the impact of Canada's game and winter weather. These innovative, and affordable wooden blocks are both lightweight and durable, so they can be easily delivered and assembled in your backyard without damaging your lawn.

ECO FRIENDLY

No adhesives. No glues. No hard-to-pronounce materials to worry about. Just natural, sustainable wooden blocks that create safe and strong backyard rinks.

TIME SAVING

No more endless hours of carrying building materials and equipment as you construct your rink only to go through the entire process again when removing and storing for the summer.

AFFORDABLE

No more expensive trips to the hardware store to purchase wood, materials, and building equipment. Plus, additional costs for home delivery or a truck rental to do it yourself.
